

Quality Improvement Scholars Program

Build your expertise as a quality improvement leader and scholar

The Quality Improvement Scholars Program (QISP) is a year-long course designed to support healthcare professionals and quality leaders who seek advanced training in QI research methods and leadership skills. Scholars engage with nationally known QI experts while designing, implementing and publishing their own QI research projects.

Key Dates:

July 31, 2025: **Applications due by 5 p.m. PDT**

August 2025: **QI scholars announced**

Oct. 15, 2025: **Program starts**

Sept. 30, 2026: **Program ends**

Go to <https://www.seattlechildrens.org/qisp> or scan below to learn more and apply!

The program offers:

- 12 interactive, monthly seminars covering QI research methods and leadership skills.
- One-on-one mentoring from QI research experts, data analytic and statistical support (provided for Seattle Children's and UW Medicine applicants only).
- Access to a community of peers from across the health system who are engaged in rigorous QI projects.
- Flexibility to join sessions live or review recorded content on course website.
- Up to 45 AMA PRA Category 1 Credits™ for physicians and up to 46 ANCC contact hours for nurses.
- Certificate of Excellence in QI Scholarship.
